

BSN 235 : Nursing Communication and Informatics

Delivery Modality: Distance

Semester Credits: 3

Contact Hours: 45

Outside Preparation: An average of three (3) hours per week for every didactic credit hour

Typically Offered:

Prerequisites: Minimum eight (8) semester credits in human anatomy and human physiology, and three (3) semester credits in college-level English, and three (3) semester credits in College Algebra or equivalent.

Corequisites: None

Requisites: MAT 220

Description: In this course, learners will explore and gain advanced knowledge and skills in information management, patient care technology, and effective interpersonal communication modalities. Nursing informatics is a combination of cognitive science, computer science, information science, and nursing science. It includes the development, analysis, and evaluation of information systems, which are augmented by technology that helps to support, enhance, and manage client care. In this course, learners will examine information management tools used to monitor outcomes of care processes, client care technologies essential to ensuring high quality, safe patient care, and communication and collaboration skills necessary to providing optimal client-centered care. The course will emphasize key concepts related to information and computer literacy.
