Description:	This course builds upon the concepts introduced in BSN 215, encompassing safe drug administration to clients across the health continuum. This course focuses on the role of the registered professional nurse as a provider of culturally competent client-centered care, education and leadership skills, and advocacy for clients with complex needs and selected diagnoses in pharmacological treatment. Using the nursing process as a guide, the learner integrates previous learning with current, expanded learning to analyze the therapeutic use of drugs and assist the patient in using them safely.
