

TRANSFER OF CREDIT

GENERAL EDUCATION (GE) COURSES

The College will consider GE academic credits earned at other post-secondary institutions for transfer when the following conditions are met:

- A grade of “C” or better must be earned in all courses.
- All other general education courses do not have a recency requirement for transfer of credit.
- Courses must be at college level.
- Human anatomy, human physiology, mathematics, and pathophysiology courses must be completed within seven (7) years preceding the anticipated start date at the College.
 - Human anatomy, human physiology, and microbiology must have a lab component to be considered for transfer. Courses that do not have a lab component do not qualify for transfer of credit.

Note¹: The College does not grant transfer of credit for duplicate coursework.

Note²: The seven (7)-year course recency requirement for human anatomy, human physiology, mathematics, and pathophysiology does not apply to the College's post-licensure programs.
